

The Sun

Entered at the Post Office at Gainesville, Fla., as second-class mail matter.

H. H. McCREARY, Editor and Publisher.
W. ASHLEY, Associate Editor.

JESSE E. HURTZ, City Editor.

LOUIS J. BRUMBY, Gen'l Traveling Agent.

F. M. PREWITT, Supt. Composing Rooms.

OFFICE: PORTER BLOCK.

25 W. Main Street, S. TELEPHONE 43-2

THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free for a year; \$2.50 six months; \$1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column to cents a line for first insertion, and 5 cents for each additional insertion.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

Sunday excursions for working girls will be conducted by a New York passenger.

Pensacola's dream of Bliss is becoming a nightmare to some of the grafters of that city.

A colored man of Jacksonville will test the Jim Crow law regarding the riding of whites and blacks on street cars.

Tampa had better watch out, as that Jacksonville exposition, which is now before the people, will be opened some time during the coming fall.

The sidewalk on East Union street is still in need of the attention of the street commissioner. Let the work be well done on all sidewalks when undertaken.

Four women were connected on one telephone line in an Eastern city, and now not one of them will speak to the other, and each one accuses the others of eavesdropping.

The Tampa Bay Hotel grounds will make a fine place for holding the fair and the speed contests will be an attraction that will draw large crowds, as many fine horses will be there.

Some of the shade trees and shrubbery about the city should be trimmed up so as not to interfere with pedestrians passing along the sidewalks. A little work in this line would add to the looks of many streets.

The Russian government wants all the mutineers shot, but it will have to hire some one to do the cowardly work besides the soldiers in the army, who when commanded to fire, turned and shot down the officers who gave the command.

There is not a newspaper in Florida but what will give the Mid-Winter Fair to be held at Tampa November 10th to 20th, all the way from five to fifty dollars' worth of advertising and never expect a dollar in return. The idea that it is a "money-making scheme" is not entertained by but one of any publishers in the State. Why the newspapers should do all the advertising for nothing, running from forty to fifty dollars per month for four or five months, is one of those things which we can't make out, unless it is because the State pays the premiums and the papers are expected to pay the rest.

The Sun cannot refrain from commenting the employment of white teachers to instruct negroes, especially in the South, where the color line is so clearly drawn. It was all right to do so immediately following the freeing of the colored man, and for several years thereafter, but now that there is a sufficient number of colored men educated to instruct the colored members of their race, they should be employed to do the work. The colored people resent the employment of white teachers to instruct them, just as white people would resent being taught by negroes, and it is high time that the objectionable practice should be stopped.

HIGHLY APPRECIATED.

Mrs. H. H. McCreary is in receipt of the following highly appreciated congratulatory letter from Mrs. Hudson, wife of Senator F. M. Hudson, upon Gainesville securing the University:

"TIBBATS, Fla., July 8, 1905.

"My Dear Mrs. McCreary: I have just heard that Gainesville has been awarded the University, and so happy am I for you. I have dropped my packing long enough to offer congratulations. Mr. Hudson joins me in wishing for Gainesville and the University unprecedented prosperity.

"Had this result been foreseen, I doubt if some of the staunchest advocates of the Buckman bill would have been so strenuous in their efforts.

"With regards to Mr. McCreary and love for you and Elmer.

"Cordially your friend,

"NORA ANDREWS HENDERSON."

It is no wonder that Gainesville was successful in securing the University when such ladies as Mrs. Hudson favored her. She is possessed of that amiable disposition which makes friends of everyone, and her sweet voice was an attractive feature of the services at the Methodist church during the last session of the Legislature.

Senator Hudson, who represented Brevard and Brevard counties, was also a good friend of East Florida Seminary and opposed the Buckman bill because he believed it was against the best educational interests of the State. He was one of the ablest members of the last Senate and immediately stepped to the front as a leader. Should he decide to remain in public, we predict that Senator Fred. M. Hudson will ere long be called to higher positions in the affairs of State.

FROM THE STATE PRESS.

Gainesville has been chosen as the location for the new State University and Dr. Andrew Sledd as its president. Florida should now unanimously and loyally support this institution and make it the greatest place in the South. There are great possibilities in the future and Florida should realize on them.—Tampa Herald.

While the selection of Gainesville is more than acceptable to The Globe—its preference having been based upon the peculiar geographical and altitudinal advantages possessed by it for such an institution—we are not so silly as to lay claim to one iota of influence over the Board of Control or to be in the least responsible for its selection. And this can, in truth, be said of any and every other publication in the State of Florida.—Tampa Globe.

Although it is a physical impossibility to please everyone, it is the general sentiment all over the State that the two boards did only what they thought was for the very best interest of the State of Florida in locating the colleges. Now that it has been decided we should do all in our power to help carry this important movement to a most successful end. The gentlemen constituting these boards went into this matter carefully and without fear or favor and acted accordingly.—Tallahassee Daily Capital.

The Board of Control of the State colleges met in Tallahassee last Friday, and by a vote of 6 to 4 located the State University at Gainesville. The Female College will be at Tallahassee. Prof. Andrew Sledd will be president of the University, and Prof. A. A. Murphree president of the Female College. The Deaf and Dumb Institute will likely remain at St. Augustine. We congratulate the lucky cities, and it now behooves every citizen to assist in building up these higher schools so that we may have State colleges for our boys and girls that will be the equal of any in the South.—Live Oak Crescent.

Catarrh Cannot be Cured

With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free. F. J. CHERRY & Co., Props., Toledo, Ohio.

Sold by druggists, price 75c. Take Hall's Family Pills for constipation.

Depth of Plant a Tree.

"As to the depth to plant a tree," says Suburban Life, "it seems to be the general idea that the future prosperity of the tree is proportionate to the depth and firmness with which it is placed in the ground, and the percentage that plant too shallow is almost too insignificant to be worth considering, for the sinning is all in the opposite direction. Look for the mark made by the earth on the trunk of the tree when it stood in the nursery, and, going by that, although it may seem shallow to you, you will make no mistake. The roots want warmth, light and moisture, such as they receive when placed properly, but when hermetically sealed two to three feet in the ground it is impossible to develop any vigorous root action while contending against the terribly handicapping conditions. Give your tree plenty of feeding ground, plenty of good fibrous earth, and if the place of planting is not naturally suitable dig it out deep and put in what is needed."

The Story of the Quinine Tree.

The quinine bearing trees named by Linnaeus cinchona were so called in honor of Ana, countess of Chinchona, vicereine of Peru, in 1623, a Spanish lady whose first husband was twice viceroy of Mexico and once of Peru, and her second also viceroy of Peru. While in Lima she fell ill of an ague, from which she was relieved by the powder of a bark given to her physician by a Peruvian noble, whom it had cured some years before, and when she returned to Europe she took with her a quantity of this bark. She died before reaching Spain, but it was owing to her cure and the measures she had taken to make known the remedy that quinine was first introduced into Europe, where the knowledge of its virtues was soon spread by the Jesuits. The name properly should be, according to the Spanish, cinchona, but it is rarely so spelled.

Trees.

Trees have about them something beautiful and attractive even to the fancy, since they cannot change their places, are witnesses of all the changes that take place around them and as some reach a great age they become, as it were, historical monuments, and, like ourselves, they have a life, growing and passing away, not being inanimate and unvarying, like the fields and rivers. One sees them passing through various stages and at last, step by step, approaching death, which makes them look still more like ourselves.—Humboldt.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
